Digital Workshops

Digital Workshops aim to systemise IT consultancy by blending training, implementation, instantaneous feedback and relationship building into short collaborative sessions.

Dunedin ⅅ

Win-Win

Dunedin IT is one of Scotland's most trusted and experienced technology and connectivity providers providing an end-to-end service across the private and third sectors.

Four stages of a Digital Workshop

4
Post-implementation
So how's things been since we went live?

3
Deployment
Can we you show how things are progressing?

2
*Thought Leadership*
So when we last spoke...

Tell me about your goals

Taps into the team's local knowledge to create product champions

Making instant changes with the client provides a more satisfying experience

Upskilling helps to reduce future support calls and gives the business more control

Nurtures relationships and stretches the technical team to develop new skills

Assists with the alignment of technologies that support the goals of the organisation

Speeds up and reduces implementation costs through technical and business transparency

A Gideon, seeing some issues, could you speak to their director?

B Have you seen this Darlene?

C Great, I'd like to speak to Leon about this.

D Sounds good. You know, Sunita has some great ideas too...

E Would you like to get involved? - Leon.

Managing Director	**IT Director**	**Manager**	**IT Engineer**	**Team Leader**

Client	**Dunedin IT**	**Client**	**Dunedin IT**	**Client**
How can technology support our business goals and my vision?	2020 was a big change for everyone. We need to help our clients to keep evolving.	Technology is the easy bit, how do we get the team motivated and behind the directors plans?	How do I reduce recurring issues to help clients and my responsibilities.	I wished we used this in our organisation, it would help us.
